OMPRAKASH PAWAR

AI Backend Engineer & Product Builder

+91 9522557828 | ompawar.work@gmail.com | Portfolio | ompawar15

ABOUT ME

AI Backend Engineer & Product Builder building production-ready AI applications, backend systems, and scalable products. Experienced with Python, FastAPI, LLMs, agentic systems, real-time applications, AWS, and Docker, with hands-on experience taking products from architecture to deployment.

EDUCATION

- B.Tech in Computer Science (AIML) | RGPV University, Bhopal | 2024–2028
- C.M. Rise Govt. Model School, Mhow | 12th: 90.8% (Maths Stream), 10th: 91.4%

WORK EXPERIENCE

- **Software Engineer & Teaching Assistant @ Sheryians AI School:** Build production software and mentor students in Backend Engineering, Python, Full-Stack Development, and Data Science, with hands-on experience designing and deploying real-world applications.
- **Frontend Developer Intern @ Atlyr.app (3 months):** Owned major parts of the product UI and complex Studio experience, collaborating closely with the engineering team to ship production features.
- **Technology Intern @ Silov Solutions:** Developed the company website end-to-end and worked on performance, functionality, and SEO optimization for a production business website.
- **Backend Developer Intern @ Plixipy (3 months):** Built production REST APIs, backend features, database workflows, and server-side systems, with hands-on experience in optimization and deployment.
- **Founder & Product Engineer @ GetStay.in:** Building and operating a hostel marketplace and SaaS platform serving 50+ hostels, working across backend architecture, APIs, PostgreSQL, Next.js, product engineering, and production deployment.
- **Full-Stack & Mobile Architect @ Xpert Homecare:** Engineered a production healthcare management system with Node.js, MongoDB, React, React Native, Socket.io, and real-time booking/dispatch workflows across web and mobile applications.

SELECTED AI & ENGINEERING PROJECTS

- **AI Voice Agent Platform:** Currently building an AI voice agent platform for businesses using LLMs, Vapi, ElevenLabs, custom MCPs, and backend orchestration, focused on reducing latency, improving conversational naturalness, and targeting ₹1/min conversation cost.
- **CloudOne CLI:** Engineered a developer platform for GitHub integration, CI/CD automation, Docker-based deployments, and Vercel-style deployment management using Node.js, TypeScript, and cloud infrastructure.

ACHIEVEMENTS

- 2nd Runner-Up, Google Lakecity Hackathon: Ranked among 3,000+ teams across India, building an AI-powered solution under a competitive development timeline.
- 2nd Runner-Up, Fibohack: Built and shipped a technical solution under a rapid hackathon development cycle.

SKILLS

- **Languages:** Python, TypeScript, JavaScript, pydantic, c++
- **AI & Agentic Systems:** LLM APIs, Agentic AI, LangGraph, LangChain, MCP, Prompt Engineering, ElevenLabs, Pandas, Numpy, Seaborn
- **Backend & APIs:** FastAPI, Node.js, Express.js, REST APIs, Async Programming, WebSockets, Socket.io, Pydantic
- **Databases & Data:** PostgreSQL, MongoDB, Redis, Pandas, NumPy, Scikit-learn
- **Cloud & DevOps:** AWS (EC2, S3), Docker, Nginx, PM2, GitHub Actions, CI/CD, Terraform, Jenkins
- **Frontend:** Next.js, React.js, TypeScript, Redux, Tailwind CSS, Axios,
- **Tools:** Git, GitHub, Figma
